

Software Product Description

PRODUCT NAME: Vision Impaired On-Line Documentation (VIOLD),
Version 1.0

SPD 51.31.00

DESCRIPTION

Vision Impaired On-Line Documentation (VIOLD) is a collection of current Digital product documentation in ASCII text format and distributed on ISO 9660 formatted CD-ROM. The VIOLD CD-ROM provides platform independent access to information for vision impaired customers.

VIOLD is offered by Digital's Vision Impaired Information Services (VIIS) program office and is targeted for the following audiences:

- System managers
- Blind/visually impaired end users

The documentation sets contained on the VIOLD CD-ROM can be accessed by visually impaired customers using adaptive technologies capable of reading ASCII text files, including the following:

- DECTalk PC speech synthesizer
- Braille translation software
- Braille embossers
- Refreshable Braille displays
- Screen readers
- Screen magnification systems

The Vision Impaired On-Line Documentation CD-ROM:

- Demonstrates Digital's long-standing commitment to support persons with disabilities and to maximize productivity in the work place.
- Provides Digital product information accessibility to vision and print impaired Digital customers.
- Voices Digital's support for legislation related to assistive technology, the ADA, and Section 508 of the National Rehabilitation Act.

VIOLD contains composite sets of popular Digital product documentation releases. VIOLD V1.0 includes the following product documentation sets:

- OpenVMS V6.0

- ULTRIX V4.3
- ALL-IN-1
- WPS-PLUS
- DEC BASIC for OpenVMS
- DEC C
- DEC Fortran
- DEC Pascal
- DEC VTX
- DECset
- DECTALK PC
- RISC C
- VAX C
- VAX DATATRIEVE
- VAX COBOL
- VAX DOCUMENT

INSTALLATION

VIOLD is a customer installable product. The CD-ROM can be mounted on any system that supports the ISO 9660 CD-ROM standard.

Mounting instructions for VIOLD are described on the VIOLD CD-ROM cover insert. Additionally, the mounting instructions are Braille embossed on the CD-ROM insert for blind users. Digital recommends that end users and system managers refer to the READ.ME text file on the VIOLD CD-ROM for additional installation instructions.

HARDWARE REQUIREMENTS

Any hardware platform incorporating vision impaired adaptive technology that is capable of reading ISO 9660 formatted CD-ROM.

SOFTWARE REQUIREMENTS

VIOLD is available in ISO 9660 standard CD-ROM format. Operating systems that provide full support for ISO 9660 will be able to access and read the VIOLD CD-ROM. This includes the current versions of the following operating systems:

- OpenVMS Operating System
- ULTRIX Operating System
- OSF Operating System
- MS-DOS® Operating System
- Macintosh (System 7) Operating System

OpenVMS system users require the Files-11 C/D (F11CD) layered product in order to access an ISO 9660 CD-ROM.

ORDERING INFORMATION

VIOLD Documentation Kit: QA-2FFAA-G8
VIOLD Consolidated Documentation Update Service:
