Software Product Description

PRODUCT NAME: **Team/SEE Project Planning Using AutoPLAN II on SunOS, Version 2.0** **SPD 63.50.00**

DESCRIPTION

Team/SEE™ Project Planning Using AutoPLAN II™ for SunOS™, a documentation and publishing tool, operates in the context of the COHESION™ Team/SEE for SunOS environment. The AutoPLAN II product is obtained directly from Digital Tools. The Team/SEE EnCASEment software that integrates AutoPLAN II into the Team/SEE environment is obtained from Digital. This SPD discusses the AutoPLAN II Team/SEE EnCASEment.

COHESION Team/SEE for SunOS (SPD 50.86.xx) is a set of software tools and consulting services for managing data and development processes for medium- to large-scale UNIX® software engineering projects distributed across multivendor, multisite environments. It is intended to enhance the efficiency of large software development teams and improve software product reliability. COHESION Team/SEE for SunOS supports the Carnegie-Mellon Software Engineering Institute Capability and Maturity Model (SEI-CMM) Level III efficiency model for process support and workflow control.

Team/SEE Project Planning Using AutoPLAN II on SunOS operates using the SunOS Operating System, and is also available on the OSF/1® (SPD 63.49.xx) and HP-UX® (SPD 63.51.xx) operating systems. A Motif® interface is provided.

Integration with COHESION Team/SEE for SunOS

Integration with COHESION Team/SEE for SunOS is accomplished through a Team/SEE EnCASEment (TSE) of the Team/SEE Project Planning Using AutoPLAN II on SunOS product. The TSE features include:

- Desktop icons for the Project Management tool, project libraires, and exported projects

- Support for launching AutoPLAN II with the appropriate data context (i.e., project)

- A tailored AutoPLAN II user interface to allow seamless integration with Team/SEE. For example, a "Save context As" menu item is available for creating a project library icon on the user's Desktop.

- The ability to publish a project so others can easily locate projects using the Team/SEE Library Finder

- Support for location transparency of projects: a user can continue to double-click on the project library icon to open the project even if the project resides in a different location

- Support for exported projects for placing project plans under formal revision control by the Team/SEE Product Information Browser

INSTALLATION

Digital recommends that a customer's first purchase of this software solution include Digital Installation Services. These services provide installation of the software solution by an experienced Digital Software Specialist.

For subsequent purchases of this product only experienced customers should attempt installation. Digital recommends that all other customers purchase Digital Installation Services.
