

Software Product Description

PRODUCT NAME: NetWorker BusinessSuite Module for Oracle,
Version 2.1B

SPD 64.46.07

DESCRIPTION

NetWorker software for DIGITAL™ UNIX® systems provides high-performance backup, recovery, and archival services for multivender systems in networked TCP/IP environments. The BusinessSuite Module for Oracle, used in conjunction with NetWorker, provides reliable, high-performance online data protection for Oracle7 and Oracle8 databases. The BusinessSuite Module extends NetWorker's scheduling and media management services to the Oracle7 Enterprise Backup Utility (EBU) and Oracle8 Recovery Manager (RMAN) utilities which provide parallel database backup for Oracle7 and Oracle8 databases, with granularity down to the DTA file level.

Oracle backup/restore utilities, EBU and RMAN, provide a database-aware mechanism to backup and recover Oracle data files, control files, and online redo logs, while maintaining database security and referential integrity. NetWorker extends this protection with built-in features for consistent enforcement of backup policies, automatic verification of backup operations, and comprehensive media management. NetWorker and Oracle together provide online and offline backup for tablespaces located on UFS filesystems, AdvFS filesystems, and raw partitions.

Features

- Online backup of Oracle7 and Oracle8 databases
- Parallel backup of multiple Oracle tablespaces and data files
- Simultaneous backup of multiple databases to one or more storage devices
- Database restoration to specified point-in-time
- Full off-line database backup including on-line redo logs and control files

- Comprehensive backup histories and standard SQL backup reports
- Supports DIGITAL TruCluster™ environments

HARDWARE REQUIREMENTS

The NetWorker BusinessSuite Module for Oracle has no incremental hardware requirements. See the NetWorker for DIGITAL UNIX Software Product Description (SPD 50.98.xx) for hardware requirements for the NetWorker product.

DISK SPACE REQUIREMENTS

Disk space required for installation:

5 megabytes of disk space

Disk space required for permanent use:

3 megabytes of disk space

OPTIONAL HARDWARE

None

SOFTWARE REQUIREMENTS

Oracle Server System:

The NetWorker BusinessSuite Module for Oracle is installed on the Oracle server system, and has the following software prerequisites:

- DIGITAL UNIX Operating System V4.0A or higher
- Oracle7 Server or Oracle8 Server software with the proper version of the Oracle backup/restore utility – either Enterprise Backup Utility (EBU) in Oracle7 or Recovery Manager (RMAN) in Oracle8.

- NetWorker for DIGITAL UNIX V5.2 or higher or other NetWorker V5.2 or higher servers (if the Oracle server and the NetWorker server are the same system). If the NetWorker server software resides on a different system, the Oracle server system requires the NetWorker DIGITAL UNIX client V5.2 or higher software.
- Patch number 2.12-003
This patch allows the BusinessSuite Module for Oracle V2.1B to function on a DIGITAL TruCluster V1.5 Available Server environment.

NetWorker Server System:

If the DIGITAL NetWorker server resides on a different system than the Oracle server, the NetWorker server system must be running DIGITAL UNIX V4.0A or higher. The required version of NetWorker is V5.2 or higher.

OPTIONAL SOFTWARE

None

DOCUMENTATION

The following hardcopy documents are available for the NetWorker Save and Restore Database Module for Oracle:

- *Installation Guide*
- *Administrator's Guide*

SOFTWARE LICENSING

The NetWorker BusinessSuite Module for Oracle is licensed on a per database host basis. The NetWorker client system also requires a client connection license. All licenses are enabled and registered on the NetWorker server.

This software is furnished under the licensing provisions of Digital Equipment Corporation's Standard Terms and Conditions.

License Management

NetWorker licenses are managed using Legato's Enabler and Authorization Code technology.

For more information about Digital Equipment Corporation's licensing terms and policies, contact your local DIGITAL office.

DISTRIBUTION MEDIA

This product is available on CD-ROM.

ORDERING INFORMATION

NetWorker BusinessSuite Module for Oracle Media and Documentation Kit: QA-5XVAD-H8

NetWorker BusinessSuite Module for Oracle Software Licenses: QM-5XVAD-AA

NetWorker BusinessSuite Module for Oracle Documentation Only: QA-5XVAD-GZ

For additional information on available licenses, services, and media, refer to the appropriate price book.

For information about additional NetWorker software kits, see the following software product descriptions:

- NetWorker for DIGITAL UNIX (SPD 50.98.xx)
- NetWorker for Windows NT (SPD 61.27.xx)
- NetWorker DIGITAL Client Kit Software media and documentation (SPD 70.01.xx)

SOFTWARE PRODUCT SERVICES

Software Product Services are available for this software. For more information, please contact your local DIGITAL office.

SOFTWARE WARRANTY

This software is provided by DIGITAL with a 90-day conformance warranty in accordance with the DIGITAL warranty terms applicable to the license purchase.

The above information is valid at time of release. Please contact your local DIGITAL office for the most up-to-date information.
