## SOFTWARE LICENSING INFORMATION

This software is furnished only under license to Compaq Computer Corporation. The license grants the right to use the software on the quantity of computers (nodes) specified on the Compaq License Agreement. The license applies only to a Compaq AlphaServer SC system or other valid system. A valid system such as a Compaq AlphaServer SC system requires that the computers, or nodes, be connected by a Compaq AlphaServer SC 16-port switch or a Compaq AlphaServer SC 128-port switch.

Product Authorization Keys (PAKs) are required for each of the three components: Compaq Fortran Version 5.5 for Tru64 UNIX Alpha Systems, Compaq C++ Version 6.5 for Tru64 UNIX, and Developers' Toolkit for Tru64 UNIX Version 5.1A. These keys are furnished with the purchase of the license for Compaq AlphaServer SC Development Software. These keys may be reproduced onto each of the nodes for which the product is licensed. For more information on the proper installation of the PAKs, refer to the Compaq AlphaServer SC administration documentation set.

For more information on the License Management Facility, refer to the Tru64 UNIX operating system product description (QuickSpec DA-10513) or to the Tru64 UNIX operating system documentation set.
