

Media Robot Utility, Version 1.8B

Software Release Notes

AV-RWU5C-TE

Previous Qualified Version

MRU Version 1.8A was qualified with:

- HP 1x8 Autoloader support
- Partition mode support for ESL E-Series libraries
- MRU identifies the library if it is in sequential mode
- Solution provided for WFM 3207560986-321 where the use of Drive as a parameter in MRU commands was leading to access violation

Significant Changes in this Release

Following are the significant changes included in this release:

- Support of MSL2024/4048 libraries
- Partition mode support for EML E-Series Libraries
- Solution provided for WFM 3217757724-327 where the robot unload command on empty drive was failing with "Operating Systems Specific Error"

Time Required to Install MRU

The Media Robot Utility software, for any platform, requires between two and ten minutes to install depending on the speed, power, and workload of the system.
