Firmware for HPE Integrity Servers

HPE Integrity servers include several firmware components (varying with system type), any of which might need updating. To update HPE Integrity server firmware, refer to the *VSI OpenVMS Version 8.4-2 Installation and Upgrade Manual's* section titled *Checking the Firmware Version*.

Product Licensing

The software contained on the VSI OpenVMS media belongs to VSI. Use of the software is authorized only if you have a valid software license from VSI for each of the products.

A License Management Facility (LMF) Product Authorization Key (PAK) allows you to access a software product. A PAK must be registered and loaded before you can install the associated software from this media. To obtain PAKs, contact your VSI support representative or your authorized reseller.

The OpenVMS operating system and layered products are provided in operating environments: the Base Operating Environment (BOE) and the High Availability Operating Environment (HA-OE).

You can purchase the BOE license and licenses for additional layered products, or you can choose the HA-OE, depending on which layered products you want. For more information about the operating environments and their contents, see the *VSI Operating Environments for OpenVMS Version 8.4-2 SPD (DO-VIBHAB-006)* at: <http://www.vmssoftware.com>

System Integrated Products (SIPs) are included on the VSI OpenVMS operating system media; you must purchase separate licenses to enable them. You can purchase the related documentation separately. The following products are SIPs:

- OpenVMS Cluster software
- RMS Journaling
- Volume Shadowing for OpenVMS

OpenVMS Documentation CD

This section contains information about the VSI OpenVMS Version 8.4-2 Documentation CD, including its format and contents.

Documentation CD Format

Documentation for VSI OpenVMS Version 8.4-2 is provided in PDF files on a single CD in ISO 9660 format for use on OpenVMS systems as well as on PCs and MACs.

- To access the PDF files using a MAC or a PC, treat the Documentation CD as you would any CD.
- To access the files on an OpenVMS system, specify by `/OVERRIDE=ID` when you mount the CD.

Documentation CD Content and Structure

The VSI OpenVMS Version 8.4-2 Documentation CD contains the following PDF documents in the [842FINAL] directory:

- VSI OpenVMS Version 8.4-2 Cover Letter and Release Notes
- VSI OpenVMS Version 8.4-2 Guide to Media
- VSI OpenVMS Version License Management Utility Manual
- VSI OpenVMS Version 8.4-2 Installation and Upgrade Manual
- VSI OpenVMS Version 8.4-2 Operating System Software Product Description
- VSI OpenVMS Version 8.4-2 Operating Environment Software Product Description

Layered Product Documentation

Documentation files for each layered product are located in the product's documentation directory on either the OpenVMS Operating Environment DVD or the OpenVMS Layered Product DVD. The OpenVMS Documentation DVD does not contain layered product documentation.
