Software Product Description

PRODUCT NAME: NetWorker BusinesSuite Module   **SPD 70.38.00**
for SAP/R3 on Oracle, Version 1.2C

DESCRIPTION

NetWorker for Windows NT® (Intel® and Alpha) systems provides high-performance backup, recovery, and archival services for multivendor systems in a networked TCP/IP environment. The addition of the NetWorker BusinesSuite Module for SAP R/3®, which is used in conjunction with SAP's backup interface (backint), provides reliable, high performance backup for mission-critical R/3 data. Together with the NetWorker storage management engine, the SAP R/3 interface delivers an integrated solution for protecting online SAP R/3 databases across the enterprise.

NetWorker BusinesSuite Module for SAP R/3 on Oracle® is a high-performance implementation of SAP's Backint specification that integrates SAP backup utilities with NetWorker's suite of storage management tools. The solution provides the simplified administration, hands-off automation, powerful media management and unsurpassed performance to efficiently manage large volumes of SAP R/3 data across the network. Using NetWorker's flexible scheduling, centralized operational procedures, and powerful automation, database administrators can deploy a corporate-wide SAP backup strategy that delivers high data integrity and reliability, dramatically reduces operational overhead, and ensures the highest data availability with minimal disruption to users.

Features

- Online backup of Oracle7 and Oracle8 databases

- Protects local and distributed R/3 data, including tables, tablespaces, redo logic, control and log files

- Handles raw partition and file system data

- Supports online/offline and full/incremental backup

- Optional cloning for extra security and easy offsite storage

- Backs up multiple tablespaces and database servers in parallel to one or more devices operating concurrently

- Optional client-side compression speeds backup performance

- Powerful media management

HARDWARE REQUIREMENTS

The NetWorker BusinesSuite Module has no incremental hardware requirements. See the NetWorker for Windows NT Software Product Description (SPD 61.27.xx) for hardware requirements for the NetWorker product.

DISK SPACE REQUIREMENTS

Disk space required for installation:

5 megabytes of disk space

Disk space required for permanent use:

2.5 megabytes of disk space

OPTIONAL HARDWARE

None

SOFTWARE REQUIREMENTS

SAP R/3 Server System:

The NetWorker BusinesSuite Module for SAP R/3 on Oracle is installed on the SAP R/3 server system, and has the following software prerequisites:

- NT™ Operating System V4.0 or higher

- Oracle Database V7.2x, 7.3x and 8.0x for NT Intel, and V7.3x and 8.0x for NT Alpha

- SAP R/3 Backint V3.01, 3.1 and 4.0 for NT Intel, and V3.1 and 4.0 for NT Alpha

- NetWorker for Windows NT V4.4 or higher, or other NetWorker servers V4.4 or higher. NetWorker for DIGITAL™ UNIX® V5.2 or higher.

NetWorker Server System:

If the NetWorker server resides on a different system than the SAP R/3 server, the NetWorker server and the NetWorker client (the SAP R/3 server) system must be running NetWorker for Windows NT V4.4 or higher, or other NetWorker servers V4.4 or higher. NetWorker for DIGITAL™ UNIX® V5.2 or higher.

OPTIONAL SOFTWARE

None

DOCUMENTATION

The following hardcopy documents are available for the NetWorker Application Interface:

- *NetWorker BusinesSuite Module for SAP R/3 on Oracle Administrator's Guide*

- *NetWorker BusinesSuite Module for SAP R/3 on Oracle Installation Guide*

SOFTWARE LICENSING

The NetWorker BusinesSuite Module for SAP/R3 on Oracle is licensed on a per database host basis. The NetWorker client system also requires a client connection license. All licenses are enabled and registered on the NetWorker server.

This software is furnished under the licensing provisions of Digital Equipment Corporation's Standard Terms and Conditions.

License Management Facility Support

NetWorker licenses are managed using Legato's Enabler and Authorization Code technology.

For more information about DIGITAL's licensing terms and policies, contact your local Compaq office.

DISTRIBUTION MEDIA

This product is available on CD-ROM.

ORDERING INFORMATION

BusinesSuite Module for SAP/R3 on Oracle Software License: QM-5XWAA-AA

BusinesSuite Module for SAP/R3 on Oracle Media and Documentation kit: QA-5XWAA-H8

BusinesSuite Module for SAP/R3 on Oracle Documentation only: QA-5XWAA-GZ

For information about additional NetWorker software kits, see the following software product descriptions:

- NetWorker for DIGITAL UNIX (SPD 50.98.xx)

- NetWorker for Windows NT Alpha (SPD 61.27.xx)

- NetWorker DIGITAL Client Kit Software Media and Documentation (SPD 70.01.xx)

SOFTWARE PRODUCT SERVICES

Software Product Services are available for this software. For more information, please contact your local Compaq office.

SOFTWARE WARRANTY

This software is provided by DIGITAL with a 90-day conformance warranty in accordance with the DIGITAL warranty terms applicable to the license purchase.

The above information is valid at time of release. Please contact your local Compaq office for the most up-to-date information.
